

# LCI3

**Front end network  
management device**

**Web-based building  
management made easy**

Feature	Benefit
<b>Color touch screen display</b>	Easy to navigate. No need for a PC based front end.
<b>Password Protection</b>	Only allows authorized access. Multi-level password protection.
<b>Ethernet communications</b>	Allows for local and remote connections using the intranet and internet for monitoring, upgrading, troubleshooting and adjusting controller configuration settings. Ability to upgrade software via the Internet.
<b>SD and CF storage devices</b>	Ability to archive and restore database.
<b>Battery backup</b>	Database not lost due to power cycle or outages.
<b>Trending and data logging capabilities</b>	Allows information to be collected and viewed at a future time.
<b>Up to 63 controllers on the LonWorks network</b>	Supports small and large BAS systems. Allows for system expansion.
<b>Self-configuration of the LonWorks network and database</b>	No programming experience necessary for enabling communication between controllers and LCI. Database automatically generated so commissioning time is greatly reduced. Lowers overall installation/commissioning costs.
<b>No licensing or software update fees.</b>	Lowers initial cost. No hidden costs. System stays current with all enhancements. Compatible with new controller releases.
